RE: Captain Kimberly McKay

Dear Chief Wright,

This letter is in recognition of Capt. McKay's assistance that she provided me in the form of materials and visual aides to enhance the learning experience of students from Hamilton College. As part of the Criminal Justice Program course, CJ 430 Public Security & Emergency Response my students were exposed to current techniques, procedures and policies that emergency responders must react and consider for their own and others' safety.

I always appreciate the assistance that my former city co-workers offer in helping me to convey the challenges facing law enforcement and firefighting or what other emergency responders must engage when facing hazards and/or disasters. As part of this course, the students had to develop their own disaster response plan and apply it to a tabletop disaster drill exercise.

Captain McKay was very helpful in sharing materials that were applicable to the students. For those efforts, the students and I are very grateful.

Sincerely,

Thomas A. Duden
Retired LPD – currently HR Manager Design Data Corporation

Adjunct Instructor Hamilton College
